	Liquidator's personal liability within the insolvency proceeding is regulated in art. 36 of Spanish Insolvency Act. This liability has been entirely drawn up by insolvency Law. The Spanish legislator has opted for a system that introduces a difference between personal liability for damages caused to assets and personal liability which rises from direct property damage to parties or third parties. A special insolvency claim is regulated within articles 36.1 to 36.5 IA, and otherwise, a reference is made to general claims in private law. The system is based on liability actions against the board of directors. Corporate and insolvency Law bodies cannot be, however, mixed up, the purpose of this study is to establish which levels of due diligence are specifically applicable to insolvency liquidators under the Insolvency Act .]
